CAREER OBJECTIVE

A passionate learner and multidisciplinary individual with a Bachelor's degree in Biological Sciences and a solid foundation in teaching, human resource management and web development. Haven also gained foundational training in artificial intelligence, equipping me with practical knowledge of modern tools and applications. I aim to leverage my diverse skill set to build a dynamic and impactful career contributing meaningfully to forward-thinking organizations. Driven by a blend of people management experience, technological insight and a deep curiosity for knowledge, I bring strong communication, analytical thinking, adaptability, and a problem-solving mindset, essential for thriving in today's fast-evolving work environments
